

MAMA TULIA

MAY UPDATES

MOTHER'S DAY CELEBRATION

Thank you to everyone who generously supported our mothers with new blankets on the mothers day celebration. A blanket might have seemed to be a simple gift, but it has provided comfy and cozy nights to our mothers. We were able to reach a target of over 30 blankets. So, together with the mothers, our hearts are filled with joy and we say thank you.

WATER FILTERS

Our babies were rapidly getting sick, due to the unsafe drinking water provided to them by their mothers. Therefore, as Mama Tulia, we decided to provide water filters to our mothers. We are privileged to have distributed 15 water filters of which 4 were given out in this month. We look forward to continuously improve on our mothers hygiene and health by providing water filters for clean and safe water.

TUESDAY BIBLE STUDY

The attendance on our Tuesday Bible studies has greatly increased from a number of 40 to 90 averagely on a weekly basis, which led to an increase in the number of those getting saved. Nabawanuka Sylvia and Birungi Agnes gave their lives to Christ this month.

STAFF TRAINING

Mama Tulia staff had a training on 3rd May. They educated the staff on how best to have an effective and sustainable Non Government Organisation. This activity brought a big impact and progress in the organization.

KANGAROO MOTHER CARE AWARENESS DAY

As Mama Tulia, we celebrated the kangaroo mother care awareness day on 14th May, 2022. Over 200 mothers converged for this celebration at Wentz Hospital. Agnes Kirikumwino a midwife at Mulago specialized Women Neonatal Hospital educated the mothers about the kangaroo mother care technique and all its benefits. She also educated moms on the causes, signs of prematurity birth and how best to care for the premies. We distributed Mama kits and reusable sanitary pads to close the day. The event was blissful and all the mothers were excited and extremely happy.

MANNA PROGRAM

our mothers greatest joy is when they have assurance of what to feed their children for a month. the Manna program has made a great impact in the lives of our mothers as they save in order to start up businesses for their financial indepeny.

FERISHA'S HEART SURGERY

Our baby Ferisha, who had a congenital heart defect, had a very beautiful and successful surgery. She was discharged on Friday 13th May,2022 and now home recovering. Thank you so much for your continued support and prayers. May God surely bless you.

MEET NAMUTEBI

Namutebi Miracle is a 23 year old mother leaving with sickle cells disease, joined Mama Tulia early this year when she gave birth to identical preemie twins through C-Section.

Unfortunately for Namutebi, these babies have no father because she was raped with no face recognition of the rapist. Mama Tulia is working to support her raise her babies and cope with her trauma.

Happy to report that Namutebi and her babies are doing great.

We wouldn't have made all this without you. we are so humbled having you being part of Mama Tulia. Together, we shall continue saving lives of preemie babies in Uganda. God bless you...

Thank you
